

# Calendar

by Herbert

With this installment of our articles on Calendar Art Sets, I exhaust the information I have from the Keystone Matchcover Club's newsletter and the Golden Orange Matchmaker newsletter. If any of you notice an error or omission, share it with me as soon as possible.

Also, we are going to need all the information we can get on the many sets not as yet listed. My collection of covers contains many items not listed but often I do not have a complete set and sometimes I am not even sure which covers belong together in the same set. A way to help this project would be to photocopy any unlisted sets you may have and forward the information and photo copy to me at 1117 South Sixth Street, Burlington, IA 52601.

## Art Sets: III

### G. Price

This page is devoted to sets with humorous pictures. As far as I know only three of these sets have been included in published checklists prior to this time. The information on the other sets comes from studying the covers in my collection. I would be very surprised if this listing is complete. Again, you can help by sending me any information on sets you have in your collection, including perhaps photocopies.

Usually when the word circa appears before a date it means I have seen an R.M.S. convention set with that date.

I have not seen the Chicago Characters covers. Are they Hillbilly covers? Are there only two covers in the set? Just recently did I learn the name of the character featured on some Brown & Bigelow covers. I purchased a framed picture of the same character and on the back it says "The Gay Philosopher" by Henry Major. Since these covers appear to be of the same era as the Brown & Bigelow "Hilda Fat Girl" singles, I wonder if
