

## Wells Fargo Set

Here's a Diamond Match Co. set from...probably the late 1960s-early 1970s. I believe it's a five-cover set, all of which are shown here. It's basically your typical Bank set, but there are a couple of minor oddities.

Issued from San Francisco, it's interesting that the manumark is in the *center* of the inside of each cover. Also, in place of the usual Close Cover Before Striking, Wells Fargo Bank appears instead.

1. New Stove?
2. Hobbies?
3. Vacation?
4. New Car?
5. Education?

Wells Fargo, which started out here in the West, in 1852, has actually produced quite a few covers over the years. Almost all are Nationals, though.
