

Old..and Older!

Sometimes, as you've no doubt noticed, companies stick with the same cover design even as time marches on all the while. Pictured here are four different examples. In the two on the left, the design on Midgets were adapted to full 20-strike size.

In the two other examples, the designs were originally featured on DQs and then rerun on later Diamond covers without the DQ footer.

Sometimes, you'll also see 20-strike designs appearing on 30-strikes.
