

Featuring Full-Lengths!

Beer

Two of the most historically popular categories in the hobby...and all in one cover...Full-Length Beer covers! Indeed, a collector would be hard put to decide which category collection these beautiful covers would eventually end up in.

And, of course, it's the older covers that boast the finer art work. Just look at these prime examples. These happen to be from Diamond and Universal, but there are certainly great similar issues from Ohio and a couple of other manufacturers. I'm particularly partial to Ohio wide-strikers, personally.

Many thanks to Loren Moore, CA; and Dan Bitter, OK; to whom these treasures actually belong.
