

Sacramento

by
Mike Prero

Sacramento is the oldest incorporated city in California and is celebrating its 161st year as the capital of California, although there was a short stint in San Francisco in 1862. Sacramento has grown considerably since those early days, and landmarks have come and gone, but the latest addition to the city is the brand new downtown Kings sports stadium, which is currently under construction and is expected to further revitalize the downtown area. You can see the last 100+ years of Sacramento history in its covers.
