## 1956-1957 Demographics

[In the Jan/Feb 2005 issue, I ran current collector figures for the hobby by state. Here's a state-by-state breakdown of collectors from one of the 1956-1957 RMS Bulletins (my extract has no date)]

*Ed. It's interesting to note here that whereas RMS initially began with 100% of its membership in the East, within the next 15 years at the latest California was already its biggest contributor. [we're just natural born collectors out here!]. Also look at the whopping growth figure from New York, though. And, notice the very poor representation in the South. How on earth did we have FIVE collectors from Alaska? We've only had one from there from there for last 10-15 years or so.*
