
KNOW YOUR COVERS!

A COLOR MATCH PRODUCT
PRINTED IN CANADA BY
GRANT-MANN LITHO LTD.,
VANCOUVER, B.C.

Anyone who collects color-photo covers will be acquainted with Grant-Mann covers. They're very slick, very high-quality Canadian photo-covers. I think they're better quality than even Matchoramas.

Grant-Mann was a Vancouver, B.C.-based printing/litho company responsible for very high quality color photos on some Canadian covers. You'll find the Grant-Mann name either in the manumark, as shown in the cover here, or on the inside, as pictured above.

They were produced c. 1960-1963, so, as you might guess, there aren't very many known. Some 200 were listed as of January 1994. John Williams, OH, maintains the listing. In the 25 years I've been collecting, I've only been able to come across 90, myself. Very nice small category, though.
