

Nevada's First *[legal]* Casinos

I've had a number of requests over the last several years to rerun this list. Save it! It will probably be another 10 years before I run it again! According to Harvey J. Fuller's *Index of Nevada Gambling Establishments*, legalized gambling in Nevada came about on March 21st, 1931, and if we don't count speakeasies and the like, the first legal gambling establishments all appeared in 1931, so it's quite possible that you could encounter covers from these early gambling halls. They would, indeed, be the gems of the category!
