

# Christmas Fancies!

by  
Mike Prero

I've always counted Christmas as one of the Fancy categories, although not all of the covers therein are actually Fancy...or even colorful...but *most* certainly are! The category is loaded with Foilites, Cameos, Uniglos, Satins, Embossed, and so forth. And, it's a *big* category, with thousands of available covers, all especially appropriate for this time of year. On behalf of Sierra-Diablo, I wish all of you a very Merry Christmas, Happy Hanukkah, or whatever else happens to be appropriate in your particular case!
